PROFILE

Fresh graduate with a Bachelor's degree in Geodetic Engineering from Universitas Gadjah Mada, specializing in Surveying and Mapping, Geographic Information Systems (GIS), Remote Sensing, and 3D Modeling. Highly motivated, detail-oriented, and responsible individual with strong teamwork skills and a solid work ethic.

WORK EXPERIENCE

3D Research Engineer

Geo-AI Twinverse

03/2025 – Present
Sleman, Indonesia

- Prepared BPDP research proposal for AI and geospatial-based coconut plantation monitoring.
- Conducted Autodesk Revit training on 3D road and building modeling.

3D Road and Infrastructure Division Lead

Geo-AI Twinverse

03/2026 – 06/2026
Sleman, Indonesia

- Managed 3D road modeling activities for the Yogyakarta City Digital Twin project.
- Developed Autodesk Revit workflows and performed Quality Control (QC) for accurate data.
- Resolved technical issues and coordinated spatial data integration and workflow optimization.

3D Modeling Engineer

Geo-AI Twinverse

01/2026 – 03/2026
Sleman, Indonesia

- Created LoD 3 building models in Autodesk Revit for the FT UGM Digital Twin project.
- Conducted model validation and quality control to maintain project compliance.

GIS & 3D Modeling Engineer

Geo-AI Twinverse

03/2025 – 12/2025
Sleman, Indonesia

- Created 3D infrastructure models (roads, bridges, and water bodies) using Revit for the Jakarta Digital Twin project.
- Performed QC on SketchUp-based 3D building models to maintain data quality and project compliance.

Engineer Intern

PT Waskita Karya (Persero) Tbk

Infrastructure III Division

01/2025 – 02/2025
East Jakarta,
Indonesia

- Processed and transformed aerial imagery into orthophotos and DEMs using Agisoft Metashape to support infrastructure project requirements in Timor-Leste.
- Developed and built WebGIS and project monitoring dashboards for tender activities using QGIS and GitHub to enhance spatial visualization and progress tracking.
- Performed georeferencing and spatial adjustment of road design (DED) data using AutoCAD.
- Prepared and presented preliminary survey materials as technical communication support for project stakeholders.

Data Analyst

Geodetic Engineering Department, UGM
Proyek Rekayasa Geodesi Geomatika (PRGG)

- Performed land cover classification using Deep Learning and OBIA on aerial imagery, including accuracy assessment and validation.
- Analyzed land cover change and compared Deep Learning vs OBIA classification performance.
- Prepared project proposals and technical documentation.

08/2024 – 12/2024
Sleman, Indonesia

3D Surveyor Assistant

Geodetic Engineering Department, UGM
Performed SLAM-based data acquisition for the Pix2LandVR project to support 3D spatial modeling and virtual environment development.

04/2024 – 06/2024
Sleman, Indonesia

Field Work Team Leader (Kemah Kerja)

Geodetic Engineering Department, UGM
• Coordinated field survey activities including preliminary surveys, topographic measurements (Total Station, Waterpass), and map data processing.
• Managed task allocation and workflow to ensure timely completion of field survey stages.
• Performed field QC and resolved technical issues during surveying and mapping operations.
• Prepared and presented final group survey reports to academic supervisors.

12/2023 – 02/2024
Sleman, Indonesia

Teaching Assistant – Remote Sensing Image Analysis

Geodetic Engineering Department, UGM

02/2025 – 07/2025
Sleman, Indonesia

Teaching Assistant – Remote Sensing

Geodetic Engineering Department, UGM

02/2025 – 07/2025
Sleman, Indonesia

Teaching Assistant – Digital Photogrammetry Systems

Geodetic Engineering Department, UGM

08/2024 – 12/2024
Sleman, Indonesia

Teaching Assistant – Physical Geodesy

Geodetic Engineering Department, UGM

08/2024 – 12/2024
Sleman, Indonesia

Teaching Assistant – Database Systems

Geodetic Engineering Department, UGM

03/2024 – 07/2024
Sleman, Indonesia

Teaching Assistant – Map Projections

Earth Sciences Department, UGM

03/2024 – 07/2024
Sleman, Indonesia

Teaching Assistant – Differential Geometry (Geodetic Mathematics)

Geodetic Engineering Department, UGM

08/2023 – 12/2023
Sleman, Indonesia

Teaching Assistant – Basic Statistics

Geodetic Engineering Department, UGM

08/2023 – 12/2023
Sleman, Indonesia

Teaching Assistant – Least Squares Adjustment

Geodetic Engineering Department, UGM

02/2023 – 06/2023
Sleman, Indonesia

EDUCATION

Bachelor of Geodetic Engineering

Universitas Gadjah Mada
GPA: 3.85/4.00

08/2021 – 06/2025
Sleman, Indonesia

ORGANIZATIONL EXPERIENCE

Keluarga Mahasiswa Teknik Geodesi (KMTG)

Treasurer – Alumni and Institutional Relations Department

- Managed departmental finances transparently and efficiently to support operational and program activities.
- Prepared financial accountability reports for each work program to ensure proper documentation and budget tracking.

08/2023 – 03/2024
Sleman, Indonesia

Ikhlasgama

Staff – Human Resource Development

- Planned and implemented HR development programs to improve member engagement and capacity building.

04/2023 – 02/2024
Pemalang, Indonesia

- Organized internal bonding activities to strengthen team cohesion and collaboration.

SKILLS

Technical Skills

- Operated and managed **Microsoft Office (Word, Excel, PowerPoint)** for documentation, data analysis, and reporting tasks.
- Utilized **Google Workspace (Docs, Sheets, Drive, Meet)** for cloud-based collaboration and data management.
- Developed and analyzed spatial data applications using **Python, HTML, and JavaScript** for WebGIS visualization and geospatial tools.
- Processed and analyzed geospatial and satellite imagery data using **Google Earth Engine, SNAP, ENVI, Global Mapper, and Agisoft Metashape**.
- Designed and developed 3D models and infrastructure visualizations using **Autodesk Revit, Civil 3D, SketchUp, and Blender**.
- Developed and managed GIS and Web Mapping systems using **QGIS, ArcGIS**, and web-based platforms for spatial data visualization.
- Conducted field surveying and spatial data acquisition using **GNSS, Total Station, and Waterpass** for mapping and geospatial measurement.
- Created visual communication and graphic design materials using **Canva** and **Figma** for presentations and data storytelling.
- Operated CAD software such as **AutoCAD** for mapping, georeferencing, and infrastructure design.

Soft Skills

- Fast learner, adaptable to new technologies and work environments
- Strong teamwork and collaboration skills
- Responsible and highly disciplined
- Detail-oriented
- Strong critical thinking and problem-solving skills
- Honest and trustworthy
- Good adaptability in dynamic environments
- Effective communication skills

AWARDS

Best Presentation Award – National Scientific Writing Competition (LKTIN LOGIN)

2024

Mercator UGM

COURSES

Completed Training on Automated Building Detection using YOLO Algorithm 

02/2026

Geo-AI Twinverse

Sleman, Indonesia
